

TornioHaparanda

Site visit March 13th, 2017
12:00 – 14:00

Present

Jarmo Lokio, City Architect, City of Tornio
Göran Wigren, Executive Director, Civil administration, City of Haparanda

We gathered in lobby of the Green Line building in Tornio. One person came to the site visit.

We revised the competition brief first and then left for the tour. We walked to the marina which is also a small ice swimming center in the winter with heated locker rooms. From the marina we continued by the old power station to the old town hall in the gymnasium block.

From there we walked by the Orthodox church to Haparanda in Sweden. We ended the visit at the Viktoriantori square, which crosses the border between Tornio and Haparanda.

Göran Wigren and the visitor on Viktoriantori square. The border goes between them.

- Q: Is it possible to get**
1) drawings of the old high school building?
2) plans of the inside of Rajakaari?

A: Yes, we will add both to the site folder.

Note! The design for the Rajakaari area south of Route E4 has not been implemented.
