TURKU (FI) LINTUKOTO

3

In Lintukoto, people and nature meet to celebrate water – and to build a softer, shared way of living.

VIEW 4, CELEBRATING WATER

Here, the city pauses – and invites you to do the same.
To walk slower, look closer, and rediscover what it means to belong.

VIEW 3, RESIDENTIAL

AXONOMETRY 1.1

AXONOMETRY 1.2

Let yourself be carried by water, light, and smell. Step into a new rhythm of life – flowing freely between nature-community, for the future!

PERMEABLE SURFACES

PHASE 3
Adaptive reuse, innovation, special typologies

- Completion of phytoremediation in former industrial area
- Construction of student housing above reused buildings
- Start-up hub for small businesses and shared creative workshops
- Construction of pavilions for the community in the public spaces
- Creation of spaces for hobbies and relaxation
- Finalization of full mobility loop and green corridors network
